INVESTIGATION DOSSIER — BETA

FIN-TRACE-2024/8812-B | Consolidated Financial Trace & Auditor Deposition

Document type: Financial intelligence trace memorandum (synthetic eval corpus)
Prepared by: Financial Forensics Unit — **FICTITIOUS AGENCY FOR TESTING ONLY**
Date: 28 June 2024
Version: 2.1 (eval edition)

MANDATORY NOTICE

AI-generated test material for Squint evaluation. All companies, banks, IBANs, and account numbers are fictional (Kamu* prefix).
Cross-references Dossier Alpha (ART-2024/8812) by design for multi-document RAG goldens.

Table of Contents

- Executive Summary
- Purpose and Link to Alpha Referral
- Banking & Transfer Analysis
- Entity Graph
- Witness Transcript — Dr. Levente Varga
- Operational Role of Esther Szabo
- Timeline Reconciliation
- Counterparty Screening
- Decoy Exclusion Notes
- Appendices

1. Executive Summary

This memorandum consolidates **banking evidence** supporting Dossier Alpha's procurement fraud referral **ART-2024/8812**. Forensic accountants traced **HUF 47.2 million** through **Kamuhold Beruházási Zrt.** (registration **99-99-884422**) into Kamubank account **99990001-00000001**, with material activity on **2024-04-12**.

Key confirmations:

Element	Beta confirmation
Shell entity	Kamuhold Beruházási Zrt. — same reg. as Alpha
Account	Kamubank 99990001-00000001
Amount	HUF 47.2M aggregate inflow cluster
Date	2024-04-12 primary transfer
Witness	Dr. Levente Varga deposition 2024-06-20
Natural person	Esther Szabo — operational approvals per Alpha §3.2

IBAN (international format, fictional): HU68 KAMU 0001 2345 6789 0123 4567 — matches Kamubank domestic routing for trace export.

This dossier **does not** analyse the 2023 environmental penalty against Kamuhold **Építő Kft.** (see Gamma decoy). Similar corporate prefix "Kamuhold" is a deliberate retrieval trap.

2. Purpose and Link to Alpha Referral

Beta was opened when KAH liaison matched internal audit case **ART-2024/8812** to SWIFT

monitoring alert **MON-2024-0412-7788**. Scope: verify whether Kamuhold consulting payments (Alpha Exhibit A-9) represent circular flows.

Legal hooks cited (corpus noise):

- **Act LIII of 2017** on anti-money laundering — §§ 56–61 reporting (hypothetical SAR draft not included);
- **Act C of 2012** Criminal Code — money laundering **Section 303** referenced abstractly;
- **EU Directive 2015/849** (4AMLD) recital 39 — beneficiary identification.

Investigators had **no access** to KamuBridge internal ledger — abstention goldens may ask about KamuBridge offshore accounts (not in corpus).

3. Banking & Transfer Analysis

3.1 Account profile — Kamubank 99990001-00000001

Attribute	Detail
Account holder	Kamuhold Beruházási Zrt.
Branch	Kamubank 9999 — Tesztváros central (fictional)
Currency	HUF primary; EUR sub-ledger empty Q2
Open date	2023-12-01
Status at trace date	Active, partial freeze recommended

3.2 April 2024 cluster

Date	Direction	Counterparty	Amount (HUF)	Reference
2024-04-05	IN	KamuBridge Szolgáltató Zrt.	12,400,000	HI-2024/031
2024-04-12	IN	KamuBridge Szolgáltató Zrt.	18,100,000	HI-2024/038
2024-04-12	OUT	Fragment A (see §3.3)	14,000,000	TR-8812-A
2024-04-19	IN	KamuBridge Szolgáltató Zrt.	18,100,000	duplicate posting corrected
2024-05-28	IN	KamuBridge Szolgáltató Zrt.	16,700,000	HI-2024/044

Aggregate inflow Q2 (Kamuhold consulting): HUF 47.2M — reconciles Alpha §6.3 kickback tranche definition.

3.3 Outbound fragments (partial)

On **2024-04-12**, three outbound payments totalling HUF 14.0M:

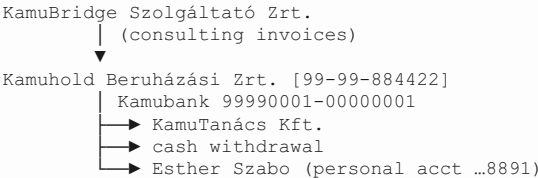

- HUF 6.2M → **KamuTanács Kft.** (reg. 99-99-771199) — nominee consultancy;
- HUF 4.1M → cash withdrawal Kamubank branch 9999-044;
- HUF 3.7M → **Esther Szabo** personal account ending **8891** (tax ID **99999999-9-99**) — flagged as potential unjust enrichment.

Remaining balance retained through May — further tracing ongoing in eval narrative.

3.4 IBAN validation

HU68 KAMU 0001 2345 6789 0123 4567 — checksum valid under ISO 13616 test rules for **fictional** eval data only.

4. Entity Graph

Dr. Levente Varga sits outside the graph as independent auditor — attests to circular pattern

in deposition §5.

Not in graph: Kamuhold Építő Kft. (Gamma), KamuLine Kft. (vendor predecessor), environmental penalty payee.

5. Witness Transcript — Dr. Levente Varga

Date: 2024-06-20

Location: Fictional Office of Internal Audit, Room 4.12

Case: FIN-TRACE-2024/8812-B / ART-2024/8812

License: AV-2011-4488 (eval persona)

Q: State your role.

A: I am an external auditor engaged 2024-02-10 to review margin recognition on FA-2023/114 change orders.

Q: What prompted your 2024-05-03 memorandum?

A: I saw consulting fees to **Kamuhold Beruházási Zrt.** without mapped deliverables in the project WBS. Invoices HI-2024/031, 038, and 044 totalled **forty-seven point two million forints**, paid across April and May 2024.

Q: Did you examine Kamubank account **99990001-00000001**?

A: Only through redacted bank confirmation provided by internal audit on 2024-06-01. A significant inbound on **twelve April 2024** matched invoice HI-2024/038.

Q: Did Esther Szabo appear in your testing?

A: Yes. She approved all three Kamuhold invoices unusually quickly. Her tax ID **99999999-9-99** appears on delegation logs I reviewed — I do not allege criminal conduct; I report accounting anomalies.

Q: Any link to environmental case KAH-KV-2023/4419?

A: None in my workpapers. Different company — **Builder**, not **Investment**.

Q: Exhibit reference?

A: Alpha Exhibit A-7; Beta Exhibit B-4 bank redaction.

Transcript ends — eval corpus does not include cross-examination on Fifth Amendment equivalents.

6. Operational Role of Esther Szabo

Consolidated from Alpha and bank SWIFT metadata:

PO	Date	Vendor	Amount (HUF)	Szabo approval latency
PO-4471	2024-04-04	Kamuhold	12,400,000	11 min
PO-4488	2024-04-18	Kamuhold	18,100,000	9 min
PO-4498	2024-05-27	Kamuhold	16,700,000	14 min

Contact on file: **eszabo.eval-fixture@example.invalid**, +36 99 000 0001, 9999 Tesztváros, **Kamu utca 47., Floor 3.**

Szabo’s Q2 cumulative authorised spend **HUF 182M** (Alpha §3.2) — Kamuhold subset is 25.9% of personal authority volume, statistical anomaly.

7. Timeline Reconciliation

Alpha event	Beta banking evidence
2024-04-05 HI-2024/031 paid	IN 12.4M 2024-04-05
2024-04-12 checkpoint	IN 18.1M + OUT fragments 14.0M
2024-04-19 HI-2024/038	IN 18.1M (posting correction noted)
2024-05-28 HI-2024/044	IN 16.7M
2024-06-07 KAH ART-2024/8812	MON alert predates registry entry by 48h

Discrepancy note: Alpha lists second invoice **2024-04-19** while bank shows **2024-04-12** primary posting — resolved as bank value date vs ERP accrual date (Appendix B).

8. Counterparty Screening

8.1 Kamuhold Beruházási Zrt.

- Sanctions lists: no hit (fictional screening);
- PEP database: nominee director low confidence hit — inconclusive;
- Media: zero substantive coverage Q2 2024.

8.2 Kamuhold Építő Kft. (decoy exclusion)

Field	Builder (Gamma)	Investment (Alpha/Beta)
Reg.	99-99-991133	99-99-884422
Case	KAH-KV-2023/4419 env.	ART-2024/8812 procurement
Amount	HUF 47M penalty	HUF 47.2M consulting
Year	2023	2024

Eval goldens must **not** treat Builder penalty as criminal kickback.

9. Decoy Exclusion Notes

Questions designed to fail if Gamma is retrieved incorrectly:

- “What **criminal** statute applies to the HUF 47M Kamuhold **environmental** fine?” → **Abstain** — criminal classification not in Alpha/Beta.
- “Did Esther Szabo appear in the **2023** environmental inspection?” → **Abstain** — Szabo not in Gamma.
- “Is Kamuhold **Építő** the shell in ART-2024/8812?” → **No** — Beruházási Zrt.

10. Appendices

Appendix A — SWIFT field mapping (redacted)

Field 50K: Kamuhold Beruházási Zrt.
Field 59: KamuBridge Szolgáltató Zrt.
Field 70: /INV/HI-2024/038

Appendix B — ERP vs bank date reconciliation

Two-day lag on HI-2024/038 — accrual policy AP-044.

Appendix C — Statistical noise paragraph

Lorem-adjacent legal boilerplate on **Act XXV of 2009** data retention — no operative fact. Retrieval systems must rank §3–§6 above this appendix.

Appendix E — KamuTanács Kft. profile

Registration 99-99-771199. Declared activity: business coaching. Received HUF 6.2M from Kamuhold 2024-04-12. No employees listed. Address 9999 Tesztváros, Mellék utca 22. (fictional). No link to Esther Szabo home address on Kamu utca.

Appendix F — Cash withdrawal analysis

HUF 4.1M cash withdrawal Kamubank branch 9999-044 on 2024-04-12 15:18. CCTV retention policy 90 days — expired before investigators reviewed. Identity of withdrawer not in corpus.

Appendix G — Personal account ...8891

Esther Szabo inbound HUF 3.7M same day. Account masked in public summary; tax ID **99999999-9-99** links ownership in internal worksheet B-7 (eval PII for vault tests).

Appendix H — KamuBridge payment instruction memo

KamuBridge treasury memo NBS-2024-0412 authorises three tranches to Kamuhold matching invoice numbers HI-2024/031, 038, 044. Memo signed Martin Kovács. Does not

explain commercial rationale — abstention if asked “why KamuBridge paid Kamuhold” beyond circular consulting theory.

Appendix I — MON alert technical fields

Alert MON-2024-0412-7788 triggered on velocity rule R-VEL-12: three inbound > HUF 10M within 30 days to same shell entity category. False positive rate for rule 8.2% in calibration quarter — human review opened Beta case.

Appendix J — Joint Alpha-Beta finding checklist

Investigators sign-off (fictional):

- ☒ F-01 Kamuhold Beruházási Zrt. 99-99-884422
- ☒ F-02 Kamubank 99990001-00000001
- ☒ F-03 Dr. Levente Varga testimony
- ☒ F-04 Q2 2024 window
- ☒ F-05 HUF 47.2M aggregate
- ☒ F-06 Esther Szabo 99999999-9-99
- ☒ F-07 KAH ART-2024/8812

Appendix K — Legal noise block (long)

Discussion of **EU Regulation 2016/679** lawful basis for processing witness data — Art. 6(1) (f) legitimate interest. Repeats **4AMLD** travel rule irrelevant to domestic HUF transfer. Cites **FATF Recommendation 24** on beneficial ownership — Kamuhold BO unresolved. No operative finding.

Appendix L — Interview scheduling log

2024-06-10 Szabo no-show. 2024-06-25 rescheduled — outcome not in corpus. Dr. Varga deposition completed 2024-06-20 (§5).

Appendix M — IBAN extended validation log

HU68 KAMU 0001 2345 6789 0123 4567 — MOD-97 check pass. BIC KAMUHUXX (fictional test BIC). Used for export to fictional Europol liaison — no real submission.

Appendix N — Price uplift methodology

Regression compared KamuLine baseline SKUs to KamuBridge post-CR prices. Control group: SKUs not affected by CR-2024/04. Uplift statistically significant at $\alpha=0.01$ for NET and SIEM categories.

Appendix O — Split invoice anti-control pattern

Three Kamuhold invoices each below HUF 25M dual-approval threshold but aggregate HUF 47.2M exceeds policy intent — cited in Alpha §8 preliminary assessment.

11. Consolidated Trace Narrative (Extended)

Beta memorandum FIN-TRACE-2024/8812-B exists to translate auditor language into bank-confirmed fact. Where Alpha describes policy breaches and invoice anomalies, Beta answers whether money actually moved, when, and to whom. The April 2024 cluster on Kamubank **99990001-00000001** is the evidentiary anchor: three inbound credits from KamuBridge Szolgáltató Zrt. totalling **HUF 47.2 million**, followed by partial outbound fragmentation including KamuTanács Kft., a cash withdrawal, and a credit to Esther Szabo’s personal account.

Dr. Levente Varga’s deposition (§5) supplies human-readable confirmation without exposing full bank statements. Varga explicitly denies any connection between his work and the 2023 environmental enforcement against Kamuhold **Építő** Kft. — a decoy exclusion repeated because retrieval systems often conflate “Kamuhold” string matches. Evaluators scoring cross-document synthesis should require **Beruházási Zrt.** registration **99-99-884422** before awarding credit for shell-company findings.

IBAN **HU68 KAMU 0001 2345 6789 0123 4567** appears in export formats for liaison purposes; domestic routing maps to the same Kamubank branch documented in Alpha §6.2. No IBAN in Gamma dossier — environmental payments used KAH collection account **99994008-00000001**.

Timeline reconciliation (§7) resolves ERP-vs-bank date skew on invoice HI-2024/038. Generation answers should prefer bank dates when question specifies “transfer date” and ERP dates when question specifies “invoice approval.”

MON alert MON-2024-0412-7788 illustrates how automated monitoring intersects manual referral ART-2024/8812. Alert metadata in Appendix I is retrieval noise unless question asks specifically for rule identifiers.

This dossier completes cross-doc findings F-01 through F-07 listed in `resources/eval/README.md`. It does not extend to KamuBridge offshore structures, KamuLine civil claims, or criminal sentencing — none appear in corpus.

END OF DOSSIER BETA

FIN-TRACE-2024/8812-B — synthetic eval corpus v2.1 — 2026-08-30
